

Venetian Marble Bathing Salons

Now Exclusively Yours at

MONTEVIDEO

MAXIMUM DURABILITY is assured with Venetian Marble. Made of 100% fortified marble, the Venetian products have **FOUR-TIMES** the strength of quarried marble. Among the many outstanding properties of Venetian Marble is its stain, heat and impact resistance. Extensive tests were conducted with various staining agents (foods, household products and chemicals)—yet there was no appreciable effect on the stunning beauty of Venetian Marble. Heated oil (350°) was left on a marble coffee table for 15 minutes—yet the glowing sheen of Venetian Marble remained unmarred with no visible effect. Venetian Marble also withstood the impact of heavy objects dropped from various heights.
